

The Fontana Unified School District is committed to ensuring that all students have access to a high-quality mathematics curriculum and effective teaching and learning with high expectations of our students regardless of race, ethnicity, gender or socioeconomic background. The district strives to provide support and resources needed to maximize students' learning potential.

With the shifts in the California Mathematics standards:

It is more important than ever that all students have access to high-quality mathematics programs that meet the goals and expectations of these new standards.

A student's placement in math courses is a crucial crossroads for his or her future educational success.
