

African American Parent Advisory Council

(AAPAC)

African American Parent Advisory Council (AAPAC) provides a forum to hear the ideas of the African American parent community, and respond to those ideas by educating and in-forming parents of district resources, policies, and programs.

It is our goal to empower the lives of all African American children and families by providing the knowledge and skills necessary to advocate for a high-quality educational experience for our children.

The AAPAC works to develop resources that allow parents to support the academic instruction their children more actively receive and engage with educators and administrators in the Fontana Unified School District.

The Goals of the Southridge AAPAC is to:

- Expand and improve the educational opportunities for African-American/Black students.

- Ensure academic success through high expectations and challenging materials, curricula, and instruction.

- Meet educational, personal, and career needs of every African-American/Black student in a timely and effective manner.

- Encourage success in the regular school program through a collaborative decision-making process at the District, and school level, and within the community.
