BACKGROUND:
The *No Child Left Behind* (NCLB) *Act of 2001 (Section 1116(e)(1))* states that school districts must provide Supplemental Educational Services (SES) to eligible students of any Title I school that is in Program Improvement for two or more years. Public Hearing
Discussion/Action Session

BACKGROUND:
Government Code Sections 65995.5 and 65995.6 permit school districts to assess a "Level 2" fee in connection with the issuance of building permits for the construction of new residential development. The law provides for an adjusted Level 2 fee every year as can be justified by an analysis of the cost of mitigating impact from new residential development. On June 24, 2009, the Board of Education approved Resolution No. 09-39 setting a Level 2 fee level of $5.01 per square foot for new detached and attached single-family residential housing development, to be in effect through June 24, 2010.

School Planning Services has prepared the District's 2010 "School Facilities Needs Analysis" which is incorporated by reference in Resolution No. 10-37. That Report finds that the proposed Level 2 fee to be paid by new residential development is reasonably related to the needs of the community fm œased fee will become

A Notice of Public Hearing regarding the Level 2 fee and the School Facilities Needs Analysis was published in The Sun newspaper on May 18, 2010. Copies of the Needs Analysis have been sent to the Cities of Fontana, Rialto, and Rancho Cucamonga, San Bernardino County, and the local chapter of the Building Industry Association.

RECOMMENDATION:
The Superintendent recommends that the Board of Education hold a public hearing and adopt Resolution No. 10-37 decreasing the Level 2 residential developer fee to $4.08 per square foot.

RESOLUTION NO. 10-37

RESOLUTION OF THE BOARD OF EDUCATION OF THE FONTANA UNIFIED SCHOOL DISTRICT TO LEVY

WHEREAS, the Board of Education on June 24, 2009, adopted Resolution No. 09-39 levying alternative fees on residential construction pursuant to Government Code sections 65995.5 and 65995.6 in the amount of $3.01 per square foot of all assessable residential space as that term is defined in Government Code section 65995(b)(1), as to all new single-family detached or attached residential dwelling units, with Resolution No. 09-39 effective through June 24, 2010; and

WHEREAS, a fee, charge, dedication, or other requirement in an amount authorized by Government Code section 65995.6 and adopted by resolution as part of the adoption or revision of a school facilities needs analysis may not be effective for more than one year; and

WHEREAS, at least 20 percent of the teaching stations within the District are relocatable classrooms; and

WHEREAS, the District has issued debt or incurred obligations for capital outlay in an amount in excess of 30 percent of the District's local bonding capacity, including indebtedness that is repaid from property taxes, parcel taxes, the District's general fund, special taxes levied pursuant to Section 4 of Article XIIIA

NOW, THEREFORE, BE IT RESOLVED:

1. The District will establish a separate capital facilities account in which all alternative school fees collected will be deposited and will continue to be maintained, except for temporary investments, as provided in Government Code Section 66006(a). Fees from this account will be expended solely for the purpose of funding the construction or reconstruction of school facilities. Any interest income earned by monies in that account will also be deposited in that account and expended only for the purposes of the construction or reconstruction of school facilities.

Pursuant to Government Code Section 66006(b), the District will, within 180 days of the close of each fiscal year, make available to the public the beginning and ending balance for the fiscal year and the fee, interest, and other income and the amount of expenditure by public facility and the amount of refunds, if any, or the amount of any allocations made pursuant to Government Code Section 66001(f) made during the fiscal year. The District will review this information at the next regular public meeting not less than 15 days after the availability of the information. Notice of the meeting will be made in accordance with Government Code Section 66006(b).

2. The Board will make findings once each fiscal year with respect to any portion of the fee remaining unexpended or uncommitted in the alternative fee capital facilities account five or more years after deposit of the fee to identify the purpose to which the fee is to be put and to demonstrate a reasonable relationship between the fee and the purpose for which it was charged. If necessary, the District will make refunds or allocations pursuant to Government Code Section 66001(e) and (f).

3. Based upon the evidence presented at this public hearing for levying alternative fees, as well as the evidence presented in the "School Facilities Needs Analysis" prepared by School Planning Services, incorporated herein by reference, the Board of Education hereby reaffirms its earlier findings made in previous resolutions levying fees and further finds:

(a) The alternative fees are being levied to finance the construction or reconstruction of school facilities within the District, the need for which arises out of students generated from new residential construction; and

(b) There is a reasonable relationship between the use of the alternative fees and the residential construction upon which the fees are to be levied, in that the proceeds of the fees will be used for the financing of the construction and reconstruction of school facilities to accommodate the students generated by the foregoing development.

(c) There is a reasonable relationship between the need for school facilities and the residential construction on which the fees will be levied, in that residential construction generates students who will attend schools within the District.

(d) The amounts of the fees to be levied do not exceed the estimated reasonable costs of construction or reconstruction of school facilities necessitated by the new residential construction upon which the fees are to be levied.

4. The Board finds that the alternative fees will be collected for school improvements or facilities for which an account has been established and funds appropriated, and for which a proposed construction schedule or plan has been adopted, within the meaning of Government Code Section 66007, so that the fees levied on new residential construction will be collected prior to the issuance of a building permit for each such residential construction.

5. The alternative fee to be levied upon residential construction is as follows:

> $4.08 per square foot of all assessable residential space as that term is defined in Government Code Section 65995(b)(1), as to all new detached and attached residential dwelling units.

6. Pursuant to Government Code Section 66011, the Board finds that no fee may be levied on the reconstruction of any residential construction that is damaged or destroyed as a result of a natural disaster, as declared by the Governor of the State of California. Any reconstruction of real property, or portion thereof, which is not substantially equivalent to the damaged or destroyed property, will be deemed to be new construction and only that portion which exceeds substantially equivalent construction may be assessed a fee. The term "substantially equivalent" has the same meaning as that term in Revenue and Taxation Code Section 70(c).

7. The District will levy fees upon a manufactured home or mobile home in accordance with the provisions of Education Code Section 17625 and Government Code section 65995(b)(1) as may be amended or any successor law.

8. The Superintendent or his designee is directed to transmit a copy of this resolution to each city in which the District is situated and to the County of San Bernardino accompanied by supporting documents and a map clearly indicating the boundaries of the area subject to the fees. The documents will include a notification that the fees are to be collected prior to the issuance of building permits and a request that no building permits be issued for any

development subject to the levy of the fees, absent certification from the District of compliance with the fee requirements.

9. This resolution shall become effective immediately and shall remain in effect for one (1) year, through June 23, 2011.

However, in some instances there are claims that can also be handled directly by the District. Leyla Chavez lives on the other side of the block wall which is parallel to Southridge Middle School. She is alleging that one our student threw a rock which broke her sliding glass window. The rock was thrown between 11:30 to 12:30 AM. The City of Fontana Police officer, who responded works at our site, indicated that it appeared that the rock had come from the direction of our school. Our school is enclosed by a block wall. I contacted Mrs. Chavez's husband and he verified that we have rocks on our site are similar to those which broke Mrs. Chavez's sliding glass window.
